Education

Degree	Institute	Board / University	CGPA/Percentage	Year
B.Tech CSE	Vellore Institute of Technology, Chennai	VIT Chennai	8.87 (Till 4rd Sem)	2022-2026
Class 12	Velammal Vidyalaya, Mel Ayanambakkam	CBSE	95.2%	2022
Class 10	Velammal Vidyalaya, Mel Ayanambakkam	CBSE	91.6%	2020

Projects

- **Responsive Portfolio Website Development Project** *Jun 2024*
  Front-end Web Development
  - In pursuit of advancing skills in front-end development, recently undertook a significant project to create an own portfolio website from scratch, leveraging HTML, CSS, and JavaScript. Meticulously designed and developed a responsive website that showcases my work, skills, and experiences. The project encompassed various aspects of front-end development, including crafting engaging user interfaces, optimizing for responsiveness across devices, and implementing interactive features for enhanced user experience. Throughout the development process, best practices in coding was employed, adhering to semantic HTML structure, modular CSS styling, and efficient JavaScript programming. Moreover, ensured that accessibility standards were met, making the website inclusive and user-friendly for all visitors.
- **Heart Rate Monitoring With Built-In GPS Module** *Feb 2024 - Mar 2024*
  Wearable Computing
  - This project introduces a smartwatch designed for continuous heart rate monitoring and emergency notification via SMS. Integrated with a GSM module, the device sends real-time alerts when detecting abnormal heart rate fluctuations beyond preset thresholds. Additionally, the smartwatch displays XYZ coordinates and pulse rate on an OLED screen, providing users with vital health information at a glance. This innovative solution offers a compact and effective means of personal health monitoring and emergency communication, with potential applications in healthcare, fitness, and safety.
- **Comparative Analysis of IoT-based Blood Sugar Monitoring for Enhancing Diabetes Management** *Aug 2023 - Oct 2023*
  This Proposal was accepted in 6th International Conference on Recent Trends in Advanced Computing (ICRTAC)
  - This paper presents a detailed study of exploring and developing an IoT based solution for continuous blood sugar monitoring in rural areas. The main motive is to provide cost-efficient, localized and to provide remote healthcare support to people using this. The limitations of each reviewed paper are also presented in this paper and a cost-efficient model for continuous blood sugar level monitoring is defined in this paper.

Experience

- **CodeChef VIT-Chennai Chapter** *June 2024 - Present*
  Front-end Web Developer VIT-Chennai
  - As a member of the Web Developer Team at CodeChef VIT-Chennai Chapter, I am responsible for developing and maintaining our club's website, ensuring it is user-friendly, visually appealing, and up-to-date with the latest information and events. I collaborate with a talented team of developers, designers, and content creators on innovative projects to enhance our online presence and functionality. Additionally, I provide technical support for coding competitions, hackathons, and workshops, developing event-specific web pages and registration systems. My role involves implementing creative solutions to improve user engagement and contribute to the growth of our vibrant coding community.
- **IEEE Computer Society VIT-Chennai** *Oct 2023 - Present*
  Management Team Member VIT-Chennai
  - As a Management Team Member of the IEEE Computer Society Club at VIT Chennai, I organize and manage events, workshops, and seminars to enhance technical skills. I facilitate communication and operations to ensure successful event execution and develop strategic plans to promote club activities and increase member engagement.
- **Ethnus Full-Stack Development (MERN STACK)** *June 2024 - July 2024*
  Industrial Internship Trainee Remote
  - During my recent remote industrial internship, I successfully developed a News Aggregator web app using the MERN stack. This project involved implementing real-time updates, user authentication, and personalized feeds, which allowed me to significantly enhance my skills in full-stack development. Additionally, I gained valuable experience in Agile methodologies, enabling me to efficiently manage and complete tasks within a collaborative team environment.
- **CodSoft** *June 2024 - July 2024*
  Web Development Intern Remote
  - Successfully completed a 4-week virtual internship in Web Development at CODSOFT, where I designed and developed various projects using frontend technologies. I gained valuable experience in creating responsive and visually appealing user interfaces while honing my skills in Tailwind CSS. Throughout the internship, I collaborated closely with the CODSOFT team, contributing to the successful delivery of projects.

Technical Skills

- **Languages / Technologies** : Python, C/C++, Java, HTML, CSS, Bootstrap, Tailwind, JavaScript, React Library, R Studio, Matlab, LT Spice
- **Tools**: Visual Studio Code
- **Operating Systems**: Windows, Linux, MacOS & Android

Key courses taken

- **CSE & Mathematics**: Computer Programming: Python, Structured and Object-Oriented Programming : C/C++, Computer Programming: Java, Data Structures and Algorithms, Computer Architecture and Organization, Computer Networks, Calculus, Differential Equations and Transforms, Complex Variables and Linear Algebra, Web Programming, Design and Analysis of Algorithms, Operating Systems, Theory of Computation, Wearable Computing, Probability and Statistics
- **Electronics and Communication**: Basic Electrical and Electronics Engineering, Digital Systems Design, Microprocessors and Microcontrollers

Certifications

- **C Programming Certification**
  Successfully completed the C Programming Certification test organized at VIT University, Chennai Campus, with course material provided by the Spoken Tutorial Project, IIT Bombay. Achieved a score of 80.00% in the online exam conducted at VIT Chennai.
- **C++ Programming Certification**
  Successfully completed the C++ Programming Certification test organized at VIT University, Chennai Campus, with course material provided by the Spoken Tutorial Project, IIT Bombay. Achieved a score of 80.00% in the online exam conducted at VIT Chennai.
- **Python Programming Certification**
  Successfully completed the Python Programming Certification test organized at VIT University, Chennai Campus, with course material provided by the Spoken Tutorial Project, IIT Bombay. Achieved a score of 85.00% in the online exam conducted at VIT Chennai.

Achievements

- Cleared the **INTER-SCHOOL LEVEL OF SPELL BEE INTERNATIONAL COMPETITION** and qualified for Regional/State level Competition for the academic year 2017-18.
- Secured a **Certificate of Perfect Score** for securing a centum in **Physics** during the final examination in Class 9.
- Secured **Certificate of Participation** for participating in the **FOREST TREK and MASS CLEANING CAMPAIGN** as a Scout, conducted in **Raj Bhavan, Chennai** in October 2018 on the occasion of the 150th birth anniversary celebration of Mahatma Gandhi.
- **RAJYA PURASKAR Awardee** as a scout in the Bharat Scouts and Guides for the year 2019.
- Secured **Certificate of Merit** for **Outstanding Academic Performance** and for being among the **Top 0.1 percent** of successful candidates in **Mathematics** in Class 10.
- Secured **Centum in Computer Science (Python)** subject in Class 12 **CBSE Board Examination**,2022.
